+ Description

Far from the city and yet close by in the depths of the forest, the "Giants' Trails" resulted from an open-air artistic adventure launched by Sylvain Chartier and the Giants of Nideck Association in Oberhaslach. Two sculpture symposia, gave rise to 17 monumental works entitled "In Situ" and La Roche Solaire (the Sun Rock). This tour will introduce you to 3 of them. Find out more about these sculptures in our themed walking guides, available from the Bruche Valley Tourist Office.
