+ Description

Far from the city, yet close by in the depths of the forest, the Giant Trails were born of an open-air artistic adventure initiated by Sylvain Chartier and the Association Les Géants du Nideck in Oberhaslach. Two sculpture symposia, in 2007 in Lutzelhouse and in 2010 in the Champenay quarry, gave birth to 17 monumental works entitled In situ and La Roche Solaire. This tour allows you to discover 5 of them.
