+ Description

Between water and culture this route leads through the principality of Salm to two beautiful ponds, like jewel cases of quietude in the middle of a magnificent forest. The route leads along the coast of Plaine to several small villages and hamlets in the Bruche valley (Champenay, Saulxures, Poutay....) where you can see old farmhouses in a style typical of the region and many fountains from the past. Finally, the route follows the sinuous curves of the Bruche between Fouday and Rothau.
