+ Description

This hiking trail starts at Rothau railway station and takes you through beautiful rolling countryside, vast forests, lakes and crystal-clear streams. Along the way, you'll explore the ruins of Château de Salm, a former count's fortress built in the early 13th century. You'll cross several small streams winding through the forest before reaching the charming village of Les Quelles. The hike ends back at the Rothau train station, where you can relax and enjoy your adventure with a coffee or refreshing drink in one of the local cafés!
