+ Description

The desire to enhance the site has led to the creation of a trail to the summit of Petit Donon. Once you've reached the summit, you'll be rewarded with a panoramic view of the surrounding mountains. The hike continues through peaceful forest paths and green fields, where you'll discover the Saint Hubert pond, of which today only a few remnants remain of what was once a fishing pond. The trail is dedicated to Guy Brignon, who passed away in 2009, and is a testament to this nature lover's civic involvement and attachment to the Bruche valley.
